## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The 112 rejection is withdrawn because of the explanation given by the applicant.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3, 5, 6, 9, 10, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Viek (USPN 3,908,663).

Viek has a medical catheter, an inner sleeve, a fitting, an external bolster or base, a sleeve and wherein the inner sleeve has an open proximal end, an open distal end and a longitudinal bore extending from said open proximal end to said open distal end wherein the fitting has an open proximal end and an open distal end, said open distal end of said fitting being coupled to said proximal end of said inner sleeve in such a way as to permit materials to pass between said fitting and said inner sleeve (See Figure 1 and 3 and entire reference).

### ***Double Patenting***

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA

Art Unit: 3763

1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1-3, 5, 6, 9, 10, 13, 14, 16-18, 21, 22, 39 - 41 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-31 of U.S. Patent No. Chu et al. (USPN 6,666,853) and specifically claim 3, which recites the medical tube is inverted. Although the conflicting claims are not identical, they are not patentably distinct from each other because they both contain the medical catheter, the inner sleeve, the cap, the clamp, the body, the fitting, the plug and the sleeve.

#### ***Allowable Subject Matter***

6. Claims 13, 14, 16-18, 39, 40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 21, 22, 41 are in condition for allowance, but need a terminal disclaimer filed.

#### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
